

2020 CHOICE PLUS FORMULARY

The formulary is a list of generic and brand name drugs which may be covered by your prescription drug plan. Generic medications are listed in lower case letters and brand name medications are CAPITALIZED. Injectable medications are indicated with [INJ]. Medications that require prior authorization are indicated with [PA]. **Note:** This is not a complete listing of medications that require prior authorization. Prior authorization requirements vary by plan; please refer to your pharmacy benefit materials.

Inclusion on this list does not guarantee coverage. Depending on your prescription drug plan, some medications and items may not be covered or may have certain restrictions (ex. prior authorization, step therapy, quantity limits) apply. As formulary brand name drugs become available generically, the brand version will become non-formulary. For specific questions about your coverage, please call the phone number printed on your member ID card.
